

*Dear friends,*

*Corsica had to equip itself with an emblematic cyclo sports event with a global sound.*

*The opportunity of the very young "JS 20" and his sublime course through Corsica must be seized effectively through the sport of cycling.*

*The organization of the Corsica Cyclo "GS 20" with 250 participants, 50 organization members, 20 bikers and more than 200 followers make this annual event an essential vector of the island economy.*

*The Corsica Cyclo "GS 20" will have nothing to envy to the prestigious continental events: the Granfondo, Mont Ventoux, La Marmotte Granfondo of the Pyrenees, the Alps etc.*

*Combining the Rando mode coupled with timed segments and the presence of electric bikes (e-bike 20%), there is no doubt that these four stages through the Isle of Beauty will be a total success.*

*Indeed, what better than to treat yourself to a stay in Corsica to practice your favorite sport where the logistics have been thought at the right price on a breathtaking route.*

*Looking forward to share our passion on the island roads, I thank the stage cities, the Territorial Collectivity of Corsica, the Corsican Tourism Agency, the partners, sponsors, volunteers, etc. without whom this event could not take place.*

**The President of the Organization  
JEAN MARC ANGELOTTI**
